

Acceptance Testing

UAT Execution & Report Submission

Date	30 September 2026
Team ID	Individual
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Maximum Marks	4 Marks

1. Purpose of Document

The purpose of this document is to briefly explain the test coverage and open issues of the ServiceNow Standard Laptop Order automation project at the time of release to User Acceptance Testing (UAT).

2. Defect Analysis

This report shows the number of resolved or closed bugs at each status level. For this ServiceNow project, the available UAT evidence records two open observations. No formal severity classification was captured, so severity values are not invented.

Resolution	Severity 1	Severity 2	Severity 3	Severity 4	Subtotal
By Design	0	0	0	0	0
Duplicate	0	0	0	0	0
External	0	0	0	0	0
Fixed	0	0	0	0	0
Not Reproduced	0	0	0	0	0
Skipped	0	0	0	0	0
Won't Fix	0	0	0	0	0
Totals	0	0	0	0	0

Open observations: 2 — BUG-001: Assigned-to value was not confirmed in the available SCTASK evidence; BUG-002: a quantitative load/performance benchmark was not captured.

3. Test Case Analysis

This report shows the number of test cases that have passed, failed, and remain untested for the ServiceNow workflow.

Section	Total Cases	Not Tested	Fail	Pass
Service Catalog	2	0	0	2
Flow Designer / Workflow	2	0	0	2
Request & Task Traceability	2	0	0	2
Validation / Access	1	0	0	1

Acceptance Testing

UAT Execution & Report Submission

3. Test Case Analysis — Continued

Section	Total Cases	Not Tested	Fail	Pass
Exception Handling	2	0	0	2
Request / RITM Records	2	0	0	2
Catalog Task Generation	2	0	0	2
Final Traceability	1	0	0	1

4. UAT Summary

Item	Details
UAT Result	7 documented test cases passed; no documented failures or untested cases in the captured evidence.
Verified Flow	Standard Laptop catalog item → request / RITM → Flow Designer / Workflow Studio → Create Catalog Task.
Open Observations	Assigned-to value not confirmed and no quantitative load/performance benchmark captured.

5. Final Report Output

The UAT result supports the demonstrated ServiceNow workflow for standard laptop procurement. Submission evidence includes the Service Catalog item, Process Engine mapping, flow execution, request records, and generated Catalog Task.

6. Version Control

Version	Date	Description
1.0	30 September 2026	Initial UAT report for ServiceNow Standard Laptop automation; tables extended to contain complete text.
