

Project Demonstration — ServiceNow Standard Laptop Automation

Project: Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer

Student: Dharshini M

Team: Individual

Date: 30 September 2026

Demonstration Sequence

1. Open Standard Laptop under Service Catalog → Hardware. 2. Inspect Process Engine mapping to Standard laptop task. 3. Open Workflow Studio / Flow Designer and show Service Catalog trigger. 4. Show Create Catalog Task action. 5. Submit request and show REQ0010002 / RITM0010002. 6. Open related Catalog Task SCTASK0010001 and show generated task details.

Expected Demonstration Outcome

A valid Standard Laptop request creates a traceable fulfillment Catalog Task through the configured ServiceNow flow.
